## G TEST Guide

### Along Driving

Turn left (with M.S.B) 10 times.

Turn right (with M.S.B) 10 times.

Check mirrors every 10sconds.

Check speed every 5sconds.

Check **every** intersection.

The high way

### 3 Point Turn

1-Check Right MSB and stop no more than 30cm from the Curb.

2-Left MSB and steering all the way to the left, Stop your car is straight

3-Change gear to (R) then Right MSB, check 360\*&steering all way to the right,Move to the back looking to the back until you cross the half of the way.

4-Change gear to (D) then left MSB check 360\*& steering all way to the left ,Move & correct your car position and go with the speed limit of the street &check your mirror.

### Parallel Parking

1-Check Right MSB and park no more than 100cm from the Other Car, Mirror to mirror unless the target car is a truk we put our right mirror to the driver's door handle.

2-Steering one round right and change gear to(R)& back up slowly looking into the back, When you can see the Right backlight of the other car, stop then steering All the way to the left and signal to the right.

3-Back up until your car becomes straight then changes the gear to (P) and Apply handbrake.

## **Side Road Stop**

1-Check Right MSB and park no more than 30cm from the Curb.

2- Cancel the Signal & Gear on (P) and apply your handbrake.

3-put your 4 way signal on.

## **Some Tips**

*\*Take your time (Do everything slowly), except change lane or tune left.*

*\*We drive in the right side in the unmarked road within 1m from right curb.*

*\*In multi lanes road we drive in the right lane only. Unless the Examiner ask to change the lane to the left or make left turn or the right lane end or become turn right lane and I am going straight .*

*\*3 seconds Rule: stop in the stop sign for 3 seconds (check around in them).*

*Cancel the Turing signal in 3 seconds after done it.*

*The following distance between your car and the car ahead of you.*

*\*30 meters Rule: slow down before the stop sign or the traffic light or last car in the line. Start your M S B before the turn with 30 meters.*

*\*Gear comes first: you start with the gear in any action using the gear.*

*\*When the examiner ask to do any action, release the gas pedal and MSB and slow down by braking. This is 50% of your test. EXPT CHANGE LANE*
